A quote from a previous judge:

“It was a privilege to be part of the judging panel for the D&I Champion of Change in India Award. This is a celebration and recognition of exceptional accomplishments and dedication – both outstanding organisations and outspoken individuals – who are going above and beyond in promoting diversity and inclusion in India. In this time of increasing social change and uncertainty, it is more important than ever to recognise leaders who are being authentic change agents. I speak also on behalf of my fellow judges when I say we had a great time as a panel together and it was equally a tough responsibility. I was humbled and touched by the contributions of each of the finalists and left enriched with so much more understanding of what can be done at work and beyond. Exceptional dedication shown by the champion nominees and outstanding individuals in their own right.”
