

Diversity & Inclusion in Asia Network (DIAN)

(Member-Only) Meeting #1 | 10-11 April 2019 | Singapore

DIAN Meetings are designed to provide opportunities for inspiration, learning, sharing and development of best practice.

Day 1: A Deeper Look at Inclusion in Asia

Wednesday, 10 April 2019 – 9am – 5:15pm

The majority of companies now prioritise the creation of an inclusive culture – but this can prove to be an elusive and challenging goal. We examine some of the obstacles in Asia and consider what ‘true inclusion’ looks like – particularly in the face of backlash or opposition. We also share practical approaches to measuring a culture of inclusion.

- Examine common obstacles to creating a culture of inclusion
- Navigate backlash or opposition to inclusion efforts
- Gain insights into how companies are measuring progress

Day 2: Investing in a Diverse Talent Pipeline

Thursday, 11 April 2019 – 9am – 5:00pm

Sometimes the ability to promote diversity internally is challenged by the ability to source diverse talent externally. With an over-reliance on traditional methods, we explore the role that companies have to play in disrupting the norm and investing in a wider ecosystem of diverse talent to draw upon.

- Discuss challenges of creating a truly diverse talent pool
- Explore the need for targeted efforts to level the playing field for certain diverse groups
- Share specific ways in which companies are investing in a diverse talent pipeline
